On the Subject of Buttons

Turns out you're a serial button presser.

LED	Red		Green		Blue		Yellow		White	
SERIAL NUMBER *(OLED DISPLAY)*	Is even		Has vowel		Has 5		Has any non-5 prime		Is even	
Truth	T	F	T	F	T	F	T	F	T	F
Button Order ↓	B R Y G	G R B Y	Y B G R	R Y B G	G Y R B	B G Y R	R G B Y	Y G R B	Y R G B	B Y G R

On the Subject of Timing

In this industry, timing is everything.

Flip the switches correctly, hold the button then release when the last digit on the timer matches.

Word *(OLED DISPLAY)*	LED	Btn to hold	LED Result	Switch 1	Switch 2	Digit
OH	R	B	Green	True	True	5
			Yellow	False	True	2
OH	B	Y	Green	True	False	8
			Yellow	False	False	1
O	R	G	Green	False	False	3
			Yellow	True	False	7
O	B	R	Green	False	True	0
			Yellow	True	True	4
Owe	R	Y	Green	True	False	9
			Yellow	True	True	6
Owe	B	G	Green	False	False	4
			Yellow	False	True	7
By	R	R	Green	False	True	1
			Yellow	False	False	8
By	B	B	Green	True	True	3
			Yellow	True	False	0
Bye	R	G	Green	True	True	2
			Yellow	True	False	5
Bye	B	Y	Green	False	True	6
			Yellow	False	False	9
Buy	R	B	Green	False	False	7
			Yellow	False	True	3
Buy	B	R	Green	True	False	1
			Yellow	True	True	8

On the Subject of Echolocation

The blind leading the blind.

Use the joysticks to navigate towards a target position. The LED and OLED display tell you how many steps away you are along each axis.

		Steps away from target				
Axis	Indicator	0	1	2	3	4
x	LED Color	W	B	Y	R	G
y	Word *(OLED DISPLAY)*	ZAP	RUE	EVE	ART	RIG
z	Time between LED flashes	0	0.2	0.35	0.6	1.0
